### NEWS RELEASE

#### **Upper Midwest Transportation Materials Summit, November 3-4**

The University Transportation Center for Materials in Sustainable Transportation Infrastructure (UTC-MiSTI), in partnership with the Transportation Materials Research Center and the Michigan Department of Transportation, will host the 3rd Upper Midwest Transportation Materials Summit in Houghton on November 3-4, 2010. The Summit will feature invited presentations by leading university materials researchers working in the areas of concrete, asphalt, and geotechnical research supporting sustainable construction of transportation infrastructure. A number of presentations will focus on the adoption of the Mechanistic-Empirical Pavement Design Guide by state transportation agencies. For information including the technical program, lodging and registration visit the UTC-MiSTI's Website at [http://www.misti.mtu.edu/index.php?p=umtms10\\_1](http://www.misti.mtu.edu/index.php?p=umtms10_1) or contact the UTC-MiSTI business office at 906-487-3154.
